Customer & Agent Self-Service Enablement

Agents and brokers are the insurer's touchpoint with customers, providing them with the experience that customers deserve. TurnQuest Digital's solutions provides enablement features for agents and brokers and helps streamline user experiences for improved customer centricity, agility and productivity. TurnQuest Digital enables insurers to deliver compelling user journeys and engage more effectively and directly with their customers, distribution partners and broader ecosystem.

Personalized Unified User Experiences

TurnQuest Digital provides a centralized point of access for agents and customers to access the right service and the right information at the right time when they need it. The all-in-one solution with self-service tools helps speed up accounts and receivables as customer are able to view and manage their policies, make payments and view their statements from one place. Insurers are also able to provide better customer support through quality interactions and communication throughout the customer lifecycle.

Enhanced/Optimized Performance

TurnQuest Digital Platform provides secure online access to personal and client information and links to other services and systems to make it easier for users to perform the tasks they need to perform quickly and easily to save time.

Streamlined Operations

TurnQuest Digital Platform makes internal business processes faster or more accurate helping optimize agent's operations and empowering customers to take control of their insurance. Custom workflows help eliminate bottlenecks with automated commission calculations and builder and advanced reporting.
